ABOUT US

PASSION

Our team is not merely a collection of professionals, we are a dynamic force fueled by passion and determination.

From meticulous planning to the execution of each project, passion guides every step of our journey. After years of passion, and experience. It was time to share our work and vision with the world.

DEDICATION

We believe in setting ambitious goals and pushing boundaries. Our dedication is not only to meet but to exceed expectations, ensuring that every client experiences the MODA B.V advantage. This commitment is the cornerstone of our success and the reason why clients choose us as their trusted partner in warehouse automation.

VALUES

We as MODA B.V have core values.
Our values guide us to a succesful project.

01 Safety and efficient is our policy.
This is our key value to deliver a succesful project.

02 We as MODA B.V believe in being time efficient.
Fast response time equal fast results.

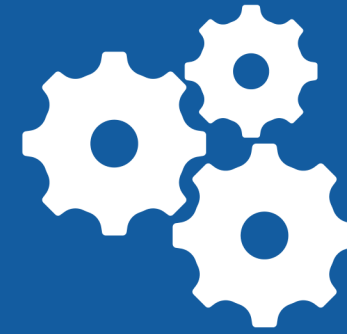

03 Quality service is key to perform at the highest level.
Day in and out, you can expect our quality everyday

04 Teamwork helps us to deliver the best service.
At any project, our team will be ready to help you.

SERVICES

Assembly-Disassembly:

Our skilled technicians ensure precision in the assembly and disassembly of automation systems, facilitating seamless transitions and upgrades.

Electrical Engineering:

Entrust us with the intricacies of electrical engineering, where we meticulously manage and optimize the electrical components integral to your warehouse automation.

24/7 Service:

We understand that downtime is not an option. Our round-the-clock service ensures that immediate support is available whenever you need it, minimizing disruptions to your operations.

Maintenance:

Stay ahead of potential issues with our proactive maintenance services, designed to enhance the longevity and efficiency of your automation systems.

Mechanical Engineering:

Rely on our expertise in mechanical engineering to fine-tune and optimize the mechanical aspects of your systems, ensuring smooth and efficient operation.

Consulting:

Benefit from our professional advice to make informed decisions about your warehouse automation solutions. Our consultants guide you through system optimization, new installations, and strategic planning.

VISION

Growth

As we navigate the path to the future, our vision is to be at the forefront of innovation, shaping the narrative of warehouse automation. Join us on this journey where growth knows no bounds, and potential is as vast as the evolving horizons of our industry.

Customer Satisfaction

Our vision is simple yet transformative, we aim to revolutionize customer satisfaction in warehouse automation. How do we achieve this? By delivering precise reports that provide actionable insights. Our commitment to rapid, direct communication ensures that your concerns are addressed promptly, minimizing downtime and maximizing efficiency.
